

## **USED & SURPLUS LISTER/PETTER PARTS**

Having been in business dealing with Lister engines & accessories since 1974, I have gathered together a large quantity of parts for which, not being involved in engine-rebuilding any longer, I no longer have a requirement. Although the condition of some of these items can be described as "last ditch spares" I believe that the stock represents a significant commercial value and, as a result, I would welcome offers from any interested parties.

Ideally I would like to dispose of the majority of these parts as job lots and an offer for the entire stock would be welcome. However, I would be prepared to extract particular items if it was worthwhile.

Most of the parts have accumulated following rebuilds or "bulk purchases", are contained in steel Lister stackable stillages (>20 off) measuring 82cm x 102cm x 82cm, & can be roughly divided as follows:

Lister Blackstone gearbox parts - mainly 2G but some 3G - gears, shafts, bearings, operating levers & parts, 2G "H" range casings etc. A quantity of the gears, shafts etc are unused old stock.  
Parts for Lister LH5 hydraulic boxes including new shafts, reverse bands etc and most of a complete gearbox assembly.

Lister "H" range parts - Cylinders, heads, air ducting, camshafts, pushrods, housings, governor parts, cylinder head covers, con-rods (HA & HR), HA3 crankcases etc. Crankshafts for HA4, HA6 & HR6.  
Mounting plates - profile cut & machined for flywheel end of HW/HRW engines.

Smaller Lister - LD/SL/SR/HSR/ST. Cylinders, heads, air ducting, camshafts, pushrods, housings, flywheels & housings, governor parts, crankcases for SL1, 2 & 3, SR1,2 & 3, ST1 & 2, TS3.

Some Petter parts - PH2 crankcase & other items, A range housings & small parts, BA rings, pushrods etc.

Aluminium castings - manifolds, fuel pump housings, raised handstart brackets etc for STW + other RHS items including pawls, pulleys, sprockets etc.

Lister & Petter special tools - pullers & insertion, setting tools etc.

Detail lists by Bin reference follow which cover those items that have been checked but there is still a significant quantity unlisted which is best viewed by serious potential purchasers.
